

One Semester Off-Campus

is a strategy in whole-person development by encouraging the undergraduate students in the Faculty of Social Sciences to opt for the off-campus experiential learning experience according to their interests and study plans for at least one semester during their university life. Apart from the curriculum-based experiential learning courses offered by some academic programmes, there are plenty of other off-campus learning activities organised by different parties.

Why is Off-Campus Experiential Learning important?

Students are encouraged to develop their talent and competency, and to gain further exposure stage by stage through different invaluable off-campus experiential learning experiences.

- ★ **Out-reaching** with off-campus or out-of-classroom exposure
